- MONEY:
  - It's a good idea to have a deposit and to keep the data of the user saved.
  - A possibility could be to have more than one payment way and to have more than one credit card.

- MARKETS:
  - Not only football bets (sports, politics, gossipping...)
  - We can do a proffesional or main one, and the others can be secondary.

- A place where the client can see what bets he/she has done and how many money has earned/lost.

- Some kind of rasca y gana → Instant win.
  - Make something that doesn't make people distrust.

- CHARTS
  - Most popular bet, bet where people has won the biggest amount of money...

- USERS PROPOSING BETS
  - Filtering!!

- GROUPS for betting

- BEST USERS interface

- BONUSES FOR ENTERING THE SYSTEM
  - Careful with legal stuff.

- ORGANIZATION is important.

- SPECIAL EVENTS

- Be careful with the administrator/user difference, as they can do different things.

- A cancel bet usecase.
  - with deadline.

- Estimations of how many money will the user win.

- BROWSING/SEARCH CRITERIA

- The user can FOLLOW some bets to have them on the top of the list.
